EDITORIAL COMMENT

STOCK MARKET REMAINS FIRM.

The stock market yesterday still retained the strength of the two former days, the prices weakening off a little, but the tone remaining firm. Doubtless the attitude of the legislature toward Governor Sparks has had something to do with the strengthening of the market. There was a report to the effect that the Wall street crowd had secured control of the Consolidated, but this has been promptly and vigorously denied by George Winfield.

Even at that there is no falling off in the market, and it looks as if the people in the East are awakening to the fact that the securities of Tonopah and Goldfield are at bedrock, and that now is the time to get in and buy. The news from San Francisco is to the effect that things are improving in all lines and that more attention is being paid to the stock market. The banks have loosened almost to the extent of a cash basis, and money is no longer difficult to get. To be sure there has been no radical change in the Eastern situation so far as the banks are concerned, but that the big change is coming is evidenced by the improvements every day. Money is all that is needed to help this country in the present stage of development, and with a little money wonders will be performed.

BIG MAJORITY FOR MINER.

WHEELING, W. Va., Jan. 16.—A private telegram received here today from Indianapolis, which is said to be authoritative, says that T. L. Lewis of Bridgeport, O., vice-president of the United Mine Workers of America, has been elected president over W. B. Wilson by a majority of 60,000 in a vote of 300,000.

SENATOR WHYTE RE-ELECTED.

ANNAPOLIS, Md., Jan. 16.—Senator William Pinckney Whyte was today elected United States Senator to fill the unexpired portion of the late Senator Gorman's term. He is already serving in the Senate by appointment.

MURDERERS APPEAL IN VAIN.

MONTE CARLO, Jan. 16.—The appeal made by Vere St. Leger Gould and his wife, Marie Violet, for revision of their sentences has been rejected. Gould recently was sentenced to life imprisonment and Mrs. Gould to death for the murder of Emma Lehin at Monte Carlo last summer.

That Struggle Everlasting

Is bound to bring results after while. It's the man who gets "cold feet" that allows a pair of deuces to skin aces up, but we are not speaking of a poker game today—our hobby is the mining game, and it is simply this:
WE BELIEVE THAT IF EVERY MAN, WOMAN AND CHILD
In Tonopah could see that gold mine of ours, they would each want a big slice of it. If you could all go there and pan all over the dump and all through the mine, then to make sure you were not "salted," bring back a bunch of samples with you and have them assayed, we know mighty well you would want a big slice of it. We only want to dispose of 50,000 shares, so why not come in and make your subscription, then when it is all taken, select the very best mining engineer in Nevada to examine the property for you and if his report don't confirm all that we say, pull down your subscription. Pretty fair proposition, don't you think?

money is coming. There are lots of transients coming and going, all of whom are looking for something, and a camp is a pretty good one that can at the stage that Rawhide has reached command \$35,000 for a lease, and \$50,000 for a group of claims.

"The saloons are crowded every night, and so are the lodging houses and restaurants. The saloons are not making a great deal of money, and there is very little gambling going on, but the restaurants and the lodging houses are getting the best play, and are making big money. There will be lots of money there before long; it can't be helped, from the way that things are going."

"I never say anything that could touch it in any camp that I have ever been in," said Roger Dougherty. "It is a pipkin, for sure. At the present stage of development it has Tonopah, Goldfield and Virginia City, all in a group, backed clean off the board. You look up at the hillsides, for several thousand feet, and see hills of ore sacked ready for shipment. There is gold, gold, gold, everywhere. Goldfield, with twice as much work done, never looked anything like as good as Rawhide. You can't describe the camp; at least, I can't, for it is absolutely bewildering. And, when you come to think of it, there has been a good deal of work done for the time that the camp has been in existence. The shafts are at four feet by seven feet, and are good looking shafts. They are nearly all timbered for the first few feet."

"On the Kearns lease, they have the ore stacked up as high as the Bonanza office, all of it high grade. They are shipping from the lease to Goldfield every day. We met the teams coming out as we went in. They have tunnels driven in for a distance of 200 and 300 feet, and the Kearns lease is down to a depth of eighty-five feet, and twelve or fourteen feet of it in ore that will go over \$200 a ton. Why, if no greater depth is obtained than that of the Kearns lease, the camp is good for at least five years. Of course, nobody can tell anything of the future, but I am willing to take my chances on Rawhide being one of the greatest camps in the world. She can't help making good. I never saw anything in my life which enthused me as much as this camp, and there is the place that the money is going to be made."

"It is the most wonderful showing that I ever saw," said George Thatcher, "and it must be seen, really, to be appreciated. The very appearance of the camp gives a man an idea of what there is there before he has seen anything of the underground conditions. On all sides of you, there are to be seen evidences of the richness of the camp, and the stuff is there in plenty. The sacks of ore are piled up like so many sacks of wheat in a granary, and they are filled with high grade ore. Nearly every lease seems to have struck the ore, and have the real stuff. If ever there was a camp going to make good, it surely is Rawhide."

KEARNS LEASE TO SHIP REGULARLY

Advices from Rawhide state that the fine weather has been helping along development work, which is increasing rapidly. There are now over 600 men at work on the different leases in the camp. The Kearns lease on the Balloon claim commenced regular shipments of fifteen tons per day of high grade ore on January 12th. They are mining and sacking only the ore that will mill over \$300 per ton.

In this lease, at a depth of 80 feet, a crosscut drift has developed fourteen feet of ore with no wall in sight seven feet of which it is claimed averages \$200 per ton as broken down.

On the Happy Hooligan claim ore assaying \$1200 per ton is reported to have just been struck. On the Murray lease another great strike is also reported. It being claimed that some of the ore goes as high as \$47,000 per ton.

In the vicinity of the Tiger group, a great deal of development is in progress. The Tiger is regarded as being one of the greatest strikes yet made at Rawhide. Its ledges seem to run northwest and southeast. This has stimulated activity in both these directions.

The Rawhide Regent Mining Company, northwest, the first Rawhide company organized to own its property outright, has put men to work on a 50-foot contract to crosscut the quartz ledge outcropping on the south side of Nil Desperandum Peak. The camp is booming and many buildings are in course of construction.—State Journal.

BUY CLAIMS AT RAWHIDE.

Ed. Renane and James Dugan, well known Nevada mining men, yesterday closed a deal for eighteen claims in the heart of the Rawhide district. They leave this morning for that camp to take charge of their property and begin development work. Some excellent assays have already been secured from the surface croppings on the estate and big things are expected. The property adjoins the now famous Tiger and Royal properties of Rawhide. Renane and Dugan have many mining interests throughout the State.—State Journal.

PICTURE TREAT FOR TONOPAH

The Butler theater has another picture treat in store for Tonopah, commencing tonight, which will be a good follower for the excellent show which ended last night, and which, by the way, went out in a blaze of glory, to two splendid houses. Tonight, the principal films will be "The Ferryman's Daughter," "In Dreamland," "Airship Thieves," "A Crime in the Snow," "Making Love to the Coalman's Wife," "The Pirates," and "Where Is My Head?"

Two more changes will follow this bill, and then will come the wonderful production of the "Passion Play," for which every producer in the East and West has been striving ever since it was put on the films. It will surely be a great treat for Tonopah.

J. P. MORGAN'S LIBRARY.

There is no more beautiful building in New York than J. P. Morgan's private library on East Thirty-sixth street. It was designed by Charles McKim in the style of the Italian Renaissance. The material is Tennessee marble, whose whiteness is relieved by a suggestion of pink. The blocks are set without cement and so close that the facade appears to be one solid sheet of stone. Notwithstanding its great solidity, the building is a model of lightness and grace. It makes all lovers of literary and artistic treasures breathe more freely to know that Mr. Morgan's priceless collection of manuscripts and rare editions is now housed in a fireproof building. Not only that, but that they are so arranged as to be seen to the best advantage. Before the library was built the basement of his dwelling house next door was used by Mr. Morgan as a storage place. The new building is apparently destined to become famous not only as a library, but to have its place in the financial history of the country; for it was within its marble walls that Mr. Morgan held those all-day and all-night business conferences in October, which resulted in averting a panic and in saving the credit of the city at a time of almost unprecedented storm and stress.—"The Lounge" in Putnam's.

JACK LAVELLE IS DYING IN RENO

RENO, Jan. 16.—Jack Lavelle, for a number of years Chief of Police of Butte City, Montana, known as one of the best officers in the entire Northwest, is dying at the People's hospital in Reno. He came here some time ago. Soon afterward he was taken ill and without telling any one went to the hospital, where he remained for four days before his friends learned of his condition. He is suffering from cancer of the stomach, and it is believed there is no chance for his recovery.

Lavelle is one of the most prominent Elks in the West and the members of that order in Reno are seeing to it that he is receiving every care possible.
